

# **BASIC KUMUSHA SOLAR-SETUP**

*ON SPECIAL - as long Stock lasts*

## **Our recommended size:**

3x 50W Solar Panels @ 410 USD each (excl VAT)	1.230 USD
1x C 40 Solar Charge Controller 360 USD each (excl VAT)	360 USD
1x PI-800W Inverter @ 250 USD each (excl VAT)	250 USD
2x 12V/105AH Deep Cycle Battery @ 210 USD each (excl VAT)	420 USD
<b><u>TOTAL</u></b>	<b><u>2.260 USD (excl VAT)</u></b>

Our *Kumusha* system is designed to power a small TV, radio, satellite dish and up to 6 energy saver lights for around about 5-6 hours daily, given sufficient sunshine to recharge the battery backup. The Total price excludes VAT and Installation costs which depend on distance to site and material used for the actual installation. We recommend the use of energy saving light bulbs only for solar powered systems. The system is extendable at any given time to a larger solar array or more battery backup time.
